un nuevo despertar

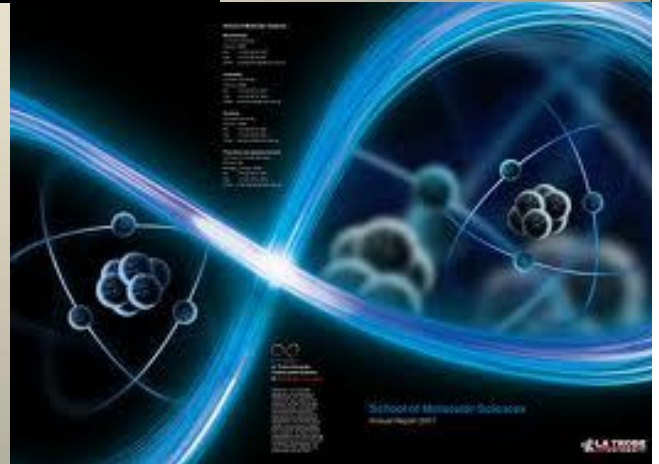

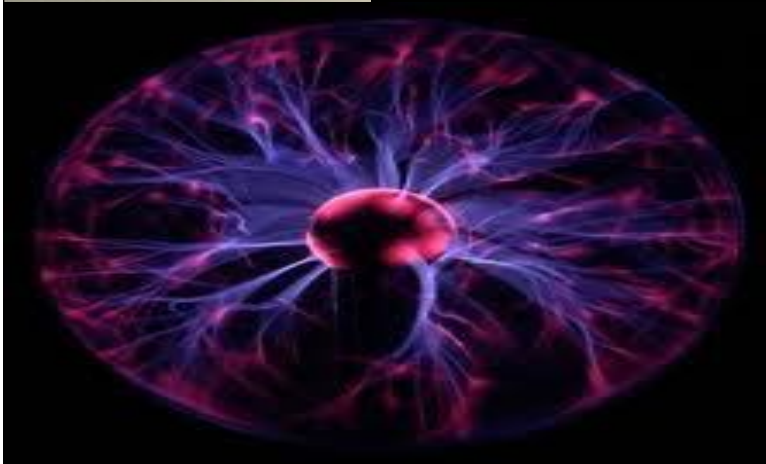

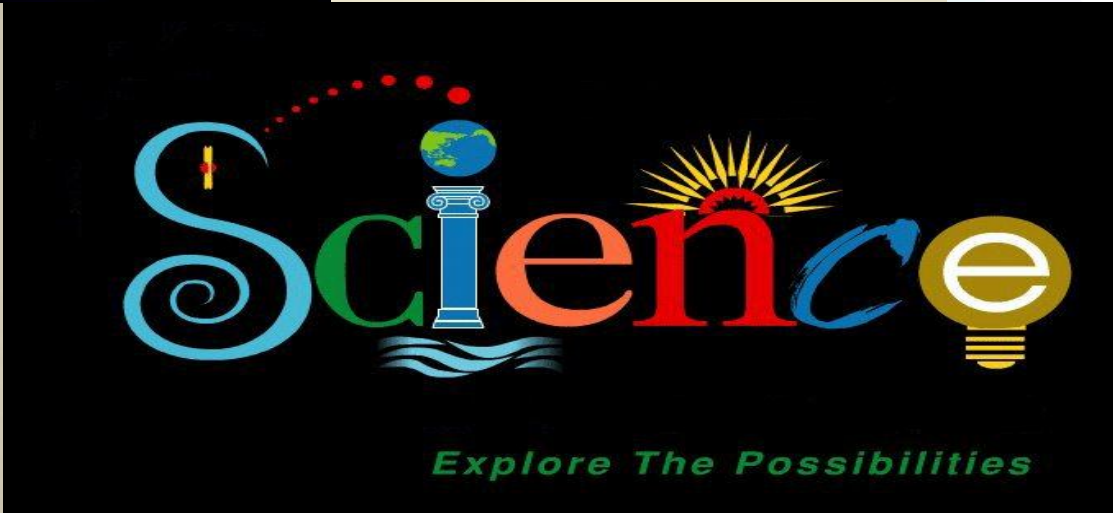

AN AWAKENING

We are awakened by new found ideologies as we revisit spiritual and religious pactices of the past exploring their traditions and re-evaluating their practices. We rework and then amalgamate to create modern and individual interpretations of these old ideas that help us rediscover our inner consciousness. Currently we see inspiration drawn from Shamanism, The Modern Tribe, and Mysticism. Over the next few months we will present a breakdown of these ideas, we will monitor and continue to identify emerging trends, and present shifting behaviours.
